

# Fiber Optic Technician and Installer

Step into the future of connectivity with Tri-C's new program!

This program is designed to meet the growing demand for skilled workers to deploy and operate fiber optic networks, including splicing, installation, troubleshooting, termination, testing, maintenance and repair.

**Short-Term Training:** Enter a high-demand field quickly.

**Hands-on Learning:** Gain practical skills for real-world scenarios.

**Industry-Recognized Certification:** Stand out with credentials that employers trust.

**Job Placement Assistance:** Secure your place in Ohio's booming workforce.

**Scholarships and Financial Assistance:** Launch a rewarding career with long-term stability.

Class starts June 10:

**Information Transport and  
Certified Fiber Optics  
Technician**

(ZIST-1005)

Tuesday and Wednesday  
10 a.m. – 3 p.m.

**tri-c.edu**
